

## OW MINI LCR 2.0 SE

The upscale "Special Edition" version of the OnWall Mini LCR 2.0 features two of our Mini LCRs with upgraded components integrated into an attractive, shallow onwall package. Omitting the center channel from the OnWall Mini LCR 3.0 SE allows the new 2.0 SE to work with televisions with 55" displays or smaller. An added bonus is reduced depth at 3-5/8", for better integration with today's new shallow onwall televisions. Unlike most onwall "soundbar" speakers, the OnWall Mini LCR 2.0 SE uses very-high-performance drivers in an extensively braced and inert cabinet, as you would expect to find in an expensive audiophile speaker.

To further blend into your decor, custom sizing is available at extra cost, as is a custom veneer option, using Triad's almost unlimited array of custom-matched real wood. Custom paint matching is also available. Although the OnWall Mini LCR 2.0 SE has bass enough to be used without a subwoofer, it can be part of a serious home theater when used with a Triad subwoofer.

### Features

- Compact Design.
- Custom lengths available.
- Triad AcoustiPerf metal grill.
- Easy-Mount Installation.

### Enclosure

- Fully engineered, Premium MDF enclosure.
- Acoustic Suspension.
- 2-way design.

### Finishes

Triad's Basic, Real Wood Veneer & Custom Finishes are available for this product. The standard finish for this product is Black paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish. The veneer finishes are made from real wood and coated with an enamel clear coat.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
